THE VINYL SIDING INSTITUTE'S IMPORTANT FIRE SAFETY  
INFORMATION STATEMENT IS AS FOLLOWS:

Exterior vinyl building materials require little maintenance for many years.

Nevertheless, common sense dictates that builders and suppliers of vinyl products store, handle and install vinyl materials in a manner that avoids damage to the product and/or structure. Owners and Installers should take a few simple steps to protect vinyl building materials from fire.

TO HOME AND BUILDING OWNERS:

Rigid vinyl siding is made from organic materials and will melt or burn when exposed to a significant source of flame or heat. Building owners, occupants and outside maintenance personnel should always take normal precautions to keep sources of fire, such as barbecues, and combustible materials, such as dry leaves, mulch and trash away from vinyl siding.

TO THE BUILDING TRADES, SPECIFIERS, PROFESSIONALS AND TO  
DO-IT-YOURSELF INSTALLERS:

When rigid vinyl siding is exposed to significant heat or flame, the vinyl will soften, sag, melt or burn, and may thereby expose material underneath. Care must be exercised prior to installation when selecting underlayment materials because many underlayment materials are made from organic materials. All building materials should be installed in accordance with local, state and Federal building codes and fire regulations.

## CARE AND MAINTENANCE

While LP vinyl siding remains virtually maintenance free, it will become dirty as any other product which is exposed to atmospheric conditions.

Normally, your LP vinyl siding can be cleaned satisfactorily through the use of an ordinary garden hose. If stubborn stains cannot be removed with water, the following procedure should be used:

1. Equip the garden hose with a soft bristled, long handle car brush.
2. Where soil is of a stubborn nature, the following cleaning solution works well:
  - 1/3 cup household detergent
  - 2/3 cup trisodium phosphate
  - 1 gallon of water

In certain geographic areas where mildew may be a problem, substitute one quart of 5% sodium hypochloride (household bleach) for one quart water in the above formula.

Where the house is extremely dirty, it is recommended that you start washing from the bottom and go to the top, rinsing frequently. Cleaning solutions should be permitted to stand on the surface of the siding for several minutes before rinsing.

## 1. Warranty Coverage

A. Coverage. This warranty applies to the original retail purchaser ("Purchaser") of LP Norman Rockwell vinyl siding and LP soffit and accessories (the "Product(s)") and to any owner of a building on which the Product(s) is originally installed ("Owner").

B. Warranty. LP warrants that its Product(s), when applied in residential applications in the United States and Canada (including prefabricated residences located or to be located on a permanent building site) will remain free from manufacturing defects that cause peeling, flaking, rusting, blistering or rotting ("Nonconformities"). IF THE PRODUCT DOES NOT COMPLY WITH THIS LIMITED WARRANTY, LP'S LIABILITY IS LIMITED TO THE REPAIR OR REPLACEMENT PROVISIONS SET FORTH IN SECTION 4 BELOW.

C. Fade Resistance: LP also warrants, to the original retail purchaser only, that LP Norman Rockwell vinyl siding will resist excessive fading from normal and expected weathering and exposure to exterior elements for 25 years. For the purposes of this warranty, excessive fading is defined as a loss of color, after cleaning with a recommended solution, in excess of a Delta E of 3 color units as measured by an industry standard color measurement device.

D. Hail Damage: In the event of damage by hail the Owner should report the damage to his or her homeowners insurance company to pursue coverage under a homeowners insurance policy. To the extent Product(s) damaged by hail is not covered by the homeowner's insurance policy, LP warrants to the original retail purchaser only that it will provide replacement material only for the damaged Product(s). The Owner shall be responsible for the payment of all installation, labor, freight costs, and for the purchase of any additional siding intended to replace undamaged Product(s).

E. Warranty Term. If the original purchaser of the Product(s) is an individual, the warranty term will be that original purchaser's lifetime. If the original purchaser of the Product(s) is not an individual, the warranty term will be deemed to be 50 years. The warranty period for any Product(s) repaired or replaced under this Warranty shall be equal to the remaining warranty period applicable to any Product(s) originally installed on the residence.

## 2. Warranty Transfer

This warranty, except for the fade resistance and hail damage warranties in Sections 1C and 1D respectively, may be transferred to the subsequent owner of the residence where the Product(s) has been installed if LP is notified of change in ownership within ninety (90) days of the change. Failure to notify LP of change in ownership shall relieve LP of all further obligation hereunder. Upon change in ownership of the residence where the products were originally installed and LP's receipt of timely notice of change of ownership, the warranty period shall be fixed at fifty (50) years from the date of original installation.
