

ADIRONDACK™

VINYL LOG SIDING WALL SYSTEM

THE RUSTIC LOOK OF
LOG SIDING WITHOUT
THE MAINTENANCE.

The Charm and Appeal of Log Siding. The Durability and Low-Maintenance of Vinyl. The Value of Adirondack Vinyl Log Siding.

- Distinctive beauty of log siding with a low gloss natural wood grain.
- Adds warmth, rustic style and charm.
- Premium .046" thick product.
- Color throughout the panel; guaranteed weatherability and color retention with Ultra-Vinyl™ UV technology.
- Inorganic product resists mold, rot and mildew.
- Incorporates Perform Guard™* patented insect resistant foam additive.
- Precisely contoured foam underlayment adds rigidity and superior impact resistance.
- Virtually maintenance free.

ADIRONDACK™

VINYL LOG SIDING WALL SYSTEM

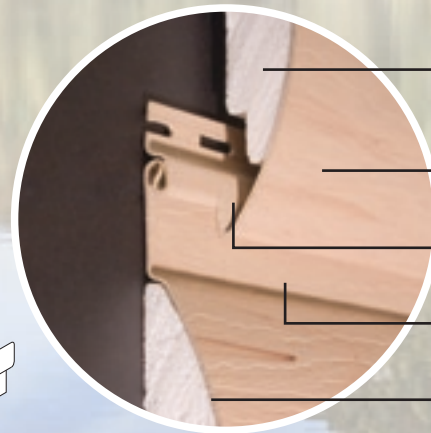

THE ADIRONDACK WALL SYSTEM CAPTURES THE CHARM OF LOG SIDING AND THE WEATHERABILITY OF VINYL.

The Charm and Appeal of Log Siding.

- Recreates the distinctive beauty and warmth of real wood log siding.
- Deeply textured woodgrain appearance of hand-stained cedar molded from real cedar logs.
- LineLock™ panel locking system firmly locks the panels together for greater rigidity and stability on the wall.
- Includes the professional finishing touch of color-coordinated J-trims and Corner Posts.

The Durability, Low-Maintenance and Affordability of Vinyl.

- Won't dent, crack, or split - .046" thick panels, 10% thicker than regular siding, and precisely contoured foam underlayment make it highly impact resistant.
- Fade resistant - UltraVinyl™ UV vinyl technology guarantees superior weatherability and color retention.
- Scratch resistant - the color is throughout the thickness of the panel, not only on the surface.
- Resists fungi, rot and insects – the contoured underlayment's non-toxic Perform Guard™* resists termites and contains no ozone depleting chemicals.
- Affordable - no specialized tradesmen, no special wood treatments, and no staining or painting or wood preservatives required. It's more energy-efficient with its foam underlayment that also absorbs sound.
- Virtually maintenance free – low maintenance alternative to real wood - no painting, no staining, and a good hose-down will get rid of the grime.
- Lifetime Limited Warranty.
