Legendary Performance and Style

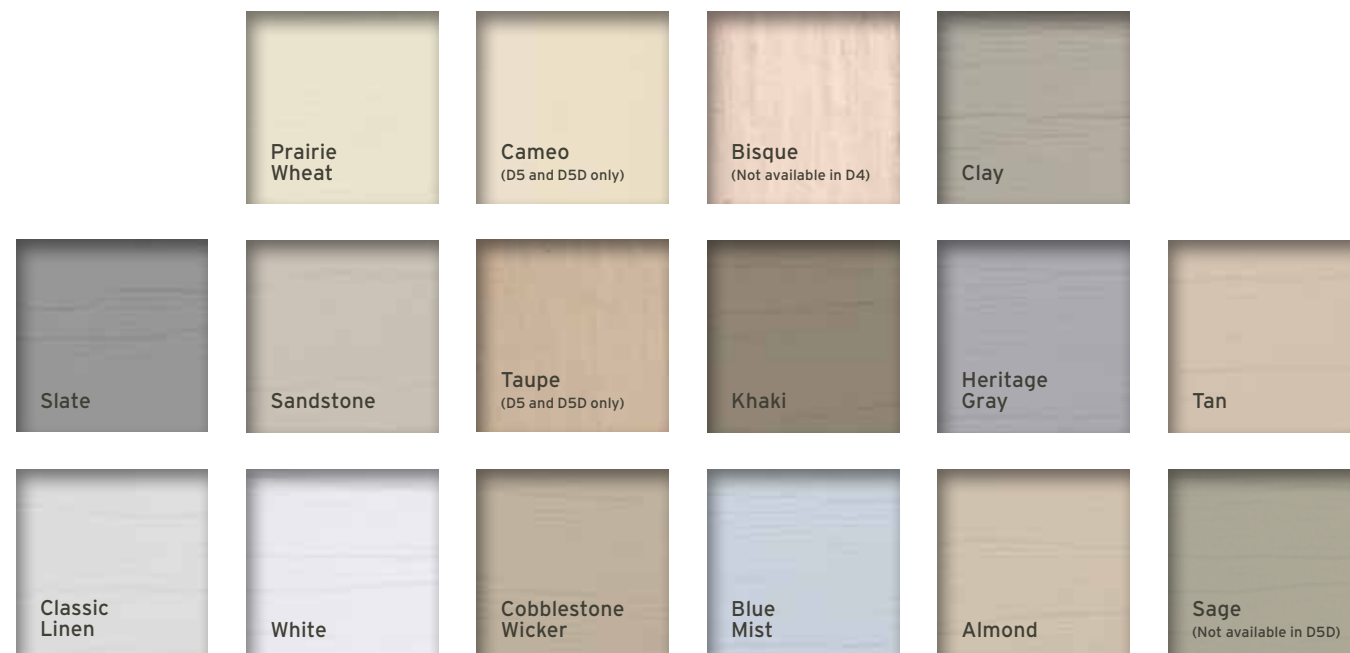

Take a STAND Against the ELEMENTS

Mother Nature and Jack Frost can be merciless. They take turns attacking your home year round. You need something tough to shelter yourself and your home. Dakota Vinyl Siding is made from our proprietary blend of premium vinyl compounds and the best UV inhibitors in the industry. And it's built with rugged construction to ensure it can handle anything the elements bring. Dakota is ready. Dakota is as tough as nails.

Bountiful COLOR

When you begin to pair these beautiful colors with Trim, Soffit and the accessories available from KP Building Products, a style truly your own will emerge.

Exceptional FEATURES and BENEFITS

Dakota is built to last. Our exceptional product is carefully designed and manufactured to give you the best performance possible. Take a look below and see what we mean.

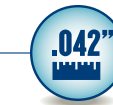

Cyclone System™ Nail Hem
Our strong nail hem provides rigidity and wind resistance up to 181 mph.

Ultra-Vinyl™ UV Technology
Premium vinyl compounds and UV inhibitors are used to protect against sun damage and fading.

Self-aligning Locking System
Our panels snap together with ease while allowing for flexibility in positioning during installation.

.042" Panel Thickness
Where our competitors cut corners, we deliver optimal thickness for impact resistance and strength.

Low Gloss Rough Cedar Texture
To the eye and to the fingertips, our cedar wood texture is as close to real wood as you can get.

Profiles with BACKBONE

Dakota brings it's impenetrable strength to four profiles. Each an every panel hangs straight and true to give any style home the distinctive look of freshly painted wood.
