Legendary Performance and Style

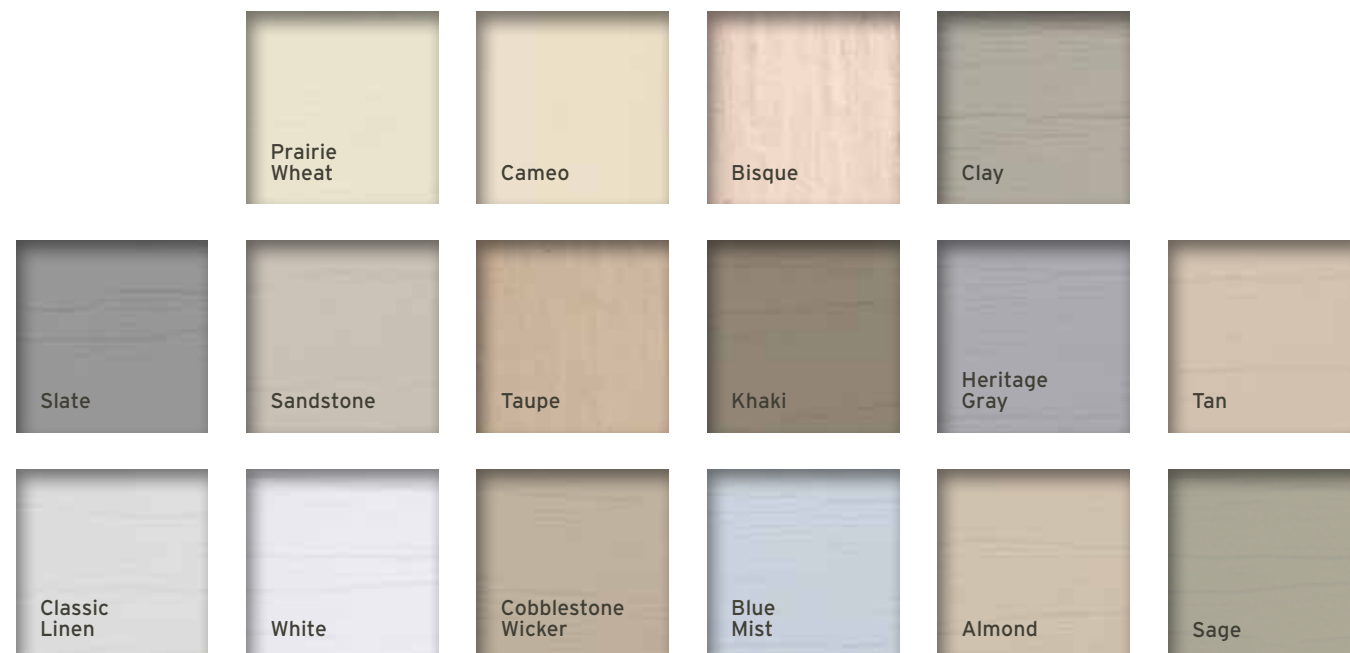

Historic Appearance of a TRUE BEADED LAP

The past comes alive when you rest your eyes on the striking appearance that is Northern Star Beaded siding. The unique look created by its sculpted beaded edge and distinctive shadow lines is remarkable. Engineered for long-lasting performance, this siding's timeless style will protect your home for years to come.

Lavish COLOR

When you begin to pair these beautiful colors with Trim, Soffit and the accessories available from KP Building Products, a style truly your own will emerge.

Superb FEATURES and BENEFITS

Northern Star Beaded has reliability that you can trust. It has been carefully designed and manufactured to give you the best performance possible. Take a look below and see what we mean.

- 200 Cyclone System™ Nail Hem**
Our strong nail hem provides rigidity and wind resistance up to 200 mph.
- Ultra-Vinyl™ UV Technology**
Premium vinyl compounds and UV inhibitors are used to protect against sun damage and fading.
- Self-aligning Locking System**
Our panels snap together with ease while allowing for flexibility in positioning during installation.
- .046" Panel Thickness**
Where our competitors cut corners, we deliver optimal thickness for impact resistance and strength.
- Low Gloss Rough Cedar Texture**
To the eye and to the fingertips, our cedar wood texture is as close to real wood as you can get.
- 1/2" Profile**
Dramatic shadow lines mirror real wood siding and add rigidity for a straighter appearance.

An UNCOMMON Profile

Northern Star Beaded is a distinct selection for an original homeowner.
