Nature's Beauty Redefined with
NORTHERN STAR
RUSTIC SIDING

KP | BUILDING PRODUCTS
Legendary Performance and Style

The NATURAL Choice

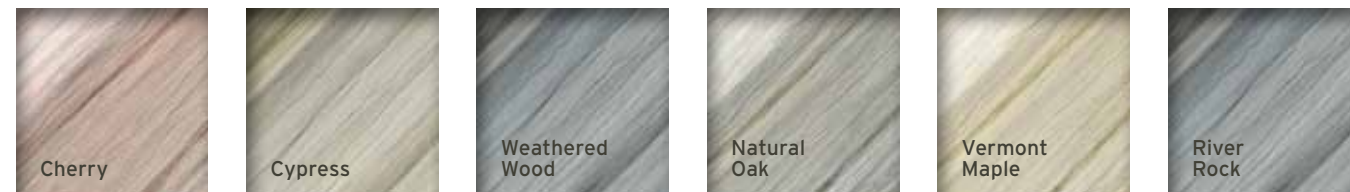

The authentic look of hand-stained cedar or redwood siding on a home is breathtaking. And the installation and the low maintenance of vinyl siding is low-cost and uncomplicated. The best of both these worlds is available in Northern Star Rustic vinyl siding.

Calibrated to just the right thickness and designed with a random, stained woodgrain appearance, these panels combine that authentic look of stained cedar siding with the premium durability and dependability of vinyl siding. You might say it's the natural choice.

Genuine COLOR

When you begin to pair these beautiful colors with Trim, Soffit and the accessories available from KP Building Products, a style truly your own will emerge.

Dependable FEATURES and BENEFITS

Northern Star Rustic is as dependable as it is beautiful. Each panel is carefully designed and manufactured to give you the best performance possible. Take a look below and see what we mean.

Ultra-Vinyl™ UV Technology
Premium vinyl compounds and UV inhibitors are used to protect against sun damage and fading.

Cyclone System™ Nail Hem
Our strong nail hem provides rigidity and wind resistance up to 200 mph.

Self-aligning Locking System
Our panels snap together with ease while allowing for flexibility in positioning during installation.

Vapor Vent™ Weep Hole System
Helps channel condensed water vapor away from the siding.

.044" Panel Thickness
Where our competitors cut corners, we deliver optimal thickness for impact resistance and strength.

Low Gloss Rough Cedar Texture
To the eye and to the fingertips, our cedar wood texture is as close to real wood as you can get.

Profiles with CHARM

Northern Star Rustic's six colors are available in two authentic Dutchlap profiles to ensure the correct, natural look of hand-stained cedar.
